Betreff: Please Preserve and Protect Rosa Rose Community Garden

Dear Herrn Steffen Kreutzer,

I am writing asking you to preserve Rosa Rose Community Garden in Berlin.

I currently live in New York City, United States and on Tuesday February 26, I will arrive in Berlin as a tourist. As a tourist I am hoping to visit, volunteer in, and enjoy Rosa Rose Garden.

I have spent the last five years of my life working with community gardens in the United States. All of my experience in this work has led me to believe that community gardens benefit the neighborhoods they exist in, the owners of the land, the people who actively use them and, ultimately, all the people of the cities they are in. People who engage with community gardens improve their neighborhoods, increase their job skills, build fellowship, and help make large cities safer, healthier, and greener places to live.

Please do all that is in your power to preserve the community garden - I look forward to visiting it next week.

In Peace,
Zachary Schulman
Astoria, NY USA
